

# DURA-FILL®

**Hot Pour Crack and Joint Sealants for Every Climate**

## P&T Products' Climate Map

This scale is to provide a rough estimate. Generally speaking, the material matching the color of the region, or one from the colors directly above or below that region will be suited to meet the climates' needs.

P&T Products works with all 50 state DOT material labs. We are pre-approved by many state DOT's.

Call to discuss your individual state, county, and local specifications.
